REDEMPTION OF THE POSTAGE

Tomorrow the postage rates that were in force before October 2, 1917, will be restored and 2 cents will once more become the rate on ordinary letters and 1 cent on postal cards. Postmaster J. J. McQuillan has requested the Bonanza to print the following information.

Sale to be discontinued—Postmasters shall discontinue the sale of No. 2 cent single domestic and No. 10 domestic reply postal cards and of 3-cent stamped envelopes at the close of business June 30, 1919.

Redemption from the public—Postmasters shall redeem from the public all unused and undamaged No. 5 and No. 10 2-cent cards and 3-cent stamped envelopes, printed or unprinted at full value, provided they are convinced such cards and envelopes are presented by the original purchasers.

To be exchanged for other stamped paper—Postmasters shall furnish in exchange for such cards and envelopes, postage stamps, postal cards, or stamped envelopes of other denominations or varieties to be selected by the owner, or may apply them in payment or part payment for 2-cent special-request envelopes.

Redemptions, not to be made in cash—No postal cards nor stamped envelopes shall be redeemed from the public in cash.

Limit to redemption privilege—The public will be allowed one month from July 1 in which to present their 2-cent cards and 3-cent envelopes for exchange at full value. After the expiration of that time postage value only shall be allowed for the envelopes and three-fourths of postage value for the cards.

YANKEE MOVIES SEEN IN BRAZIL

(Correspondence Associated Press)

RIO DE JANEIRO, Brazil, June 1.—A North American arriving in Rio de Janeiro and traversing the main street of the city, Avenida Rio Branco, can little mental effort imagine himself in New York, Boston, San Francisco or almost any city of the United States; owing to the extensive use of American-made moving picture films, which have in the last three years become exceedingly popular, to the exclusion of European-made films.

Moving picture theaters, or cinematographs as they are known here, line both sides of the avenida in the section where it passes through the heart of the downtown district. Large posters with the names and pictures of North American movie stars are to be seen in almost every direction. The Brazilians have their favorites, know their respective qualities and can, in fact, converse as knowingly of the North American moving picture world as can the enthusiasts of the United States.

In addition to the amusement they afford, the American-made films are accomplishing something of perhaps more importance. They are stimulating many Brazilians to a desire to learn the English language.

Although the captions and written explanations on each film are almost completely translated into Portuguese, this cannot be done so easily and economically with the large posters and therefore the prospective patron is often confronted with the necessity of reading the English if he wants to know something about the picture before purchasing his ticket.

This and the fact that occasionally in the captions English expressions are not translated has resulted in Brazilians learning just enough English to create a desire for more. Added to this is the apparent extension of North American and English commercial interests in Brazil. Foreign language schools attribute to these causes the constantly increasing number of English language students.

KRUPPS LOSES BIG CONTRACTS

(Correspondence Associated Press)

ESSEN, June 4.—Krupp's works here had issued a statement to their workers drawing attention to the fact that by their strikes and the consequent unrest in Germany important orders have been lost. A case has been cited of a contract with a great Dutch concern which was lost and went to England, despite the much lower price quoted by Germany, be-

HIGH PRICES FOR OLD MOTOR CARS

(Correspondence Associated Press)

LONDON, June 5.—American army motor transport in England has not cost the United States government anything for machines, according to figures prepared at army headquarters here. Astonishing prices have been paid here for machines the army has placed on auction, touring cars in scores of instances bringing more than the original cost even though they have seen rather hard usage for months.

The army purchased a number of cars of a light popular type for \$450 each and these have sold for as high as \$1000 after being used eight months. Another machine the average purchasing price for which was \$1085 has brought as much as \$1850 at the auction sales. The prices bid for touring cars has been absolutely amazing. Major J. C. Weller, head of the motor transport work in the quartermaster department here, told The Associated Press, a great deal higher than we would have dared to ask on straight sales.

Altogether the army had 592 touring cars, trucks, ambulances, motorcycles and bicycles for its work of transporting about 1,000,000 men through England. Only a dozen of these have been reserved to be used in the final clearing out of headquarters in London. Good prices have been obtained for the trucks and ambulances, exceptionally good prices when compared with what second-hand motors bring in the United States, but the greatest demand has been for the touring cars, motorcycles and bicycles.

England never did build such vehicles in quantity and during the war none were built for private use. Now the demand is so great that actual values have been almost discarded entirely.

Some observers place this demand in the same category with the insatiable desire of women for the finest of finery at unprecedented prices which even then the shops cannot supply, or other luxurious demands of people who would hardly have thought of such things before the war.

NOTARY PUBLIC—John C. Martin, Bonanza office. Residence phone 664, or 507 Brougher avenue

cause the Dutch mistrusted the ability of Krupps to carry out the contract. Similarly steel deliveries for the Norwegian state railroad were given to an American firm, his also at a far higher price.
